| April 11, 2018 | Wednesday | 7:00 p.m. | Eastings Mere Homeowner's Association |
| April 12, 2018 | Thursday | 7:30 p.m. | Village Board Meeting |

Daylight Saving Time begins at 2 a.m. on Sunday, March 11th and ends November 4th at 2 a.m. You know the old saying, "spring forward; fall behind". But did you know the name is singular... It's **Saving**, not Savings, time. It was designed to make better use of morning hours and shrink energy bills. But it also means that we can enjoy the outdoors after work and it's still somewhat light out in warmer weather. Enjoy!

When turning the clocks ahead, take a few minutes to replace the smoke alarm batteries if needed and push the test button to make sure the alarms are working. It's a great time to check carbon monoxide detectors, too.

Public Safety Reminder:

Replace Smoke Detector Batteries March 11 for Daylight Saving Time

LAKE BARRINGTON, IL—Firefighters place tremendous emphasis on maintaining their equipment so it will help them save lives in emergency situations. Why would you treat your home's smoke detectors any differently? They must be maintained to ensure they work when needed.

With clocks set to "spring ahead" Sunday, March 11th – marking the beginning of Daylight Saving Time – Barrington Countryside Fire Protection District officials urge residents to follow a simple rule of thumb to ensure the effectiveness of their home smoke detectors: **replace each unit's batteries when resetting your clocks.**

It could mean the difference between life and death. According to [National Fire Protection Association](#) (NFPA) statistics, nearly 60% of home fire deaths occur in residences with no working smoke detectors.

"We encourage residents to replace their smoke detector batteries twice per year and test the devices once per month, following the manufacturer's instructions," BCFPD Fire Chief James Kreher explained. "These life-saving tools are only effective if they are properly maintained."

For more information on home fire safety, contact the BCFPD at 224-848-4800, visit www.bcfpd.org, or follow the BCFPD on [Facebook](#).

SWANCC PROGRAMS AND RESOURCES

SWANCC offers the following programs to residents that live in a member community for materials that can be recycled or need to be safely disposed. No business, school or institutional materials will be accepted. IDs will be checked.

- Battery Recycling (from households only)
Alkaline and rechargeable batteries – tape ends
- Document Destruction Events
- Electronics Recycling (permanent drop-offs locations and one-day events)
- Fluorescent Light Bulb Recycling
- Holiday Lights
- Pharmaceutical Disposal
- Sharps Disposal

SWANCC offers a variety of resources to educate individuals about reducing, reusing and recycling opportunities, as products that can be healthier for our families and environment:

Books, Curriculum, and DVDs For Loan

- *Closing the Loop Brochure*
- *Eco Cleaning Guide*
- *Eco-Friendly Marketplace Guide*
- *Eco Landscaping Guide*
- *Green Pages Reuse and Recycling Directory*
- *Waste Reduction Solutions Brochure*

Informational YouTube Videos:

- *Composting at Home*
- *Electronics Recycling: Know the Law*
- *How to Dry Latex Paint and Dispose of Household Chemical Wastes*
- *Managing Special Materials*
- *Recycling 101: The Dos and Don'ts*

For details regarding the above programs and resources, or for additional information, visit swancc.org or call the Agency at (847) 724-9205.

Connect With SWANCC

Join the Agency's online community for upcoming event reminders and information on waste reduction, recycling and sustainability.

GENERAL RECYCLING GUIDELINES

| PLACE IN RECYCLING CONTAINER | ACCEPTABLE | NOT ACCEPTABLE |
|------------------------------|--|--|
| PAPER | Includes newspaper, magazines, junk mail, office paper, cardboard boxes, aseptic cartons to include milk, juice and soup containers, cereal/food boxes and paper egg cartons. Flatten all boxes. | Materials should be free of plastic bags and wrappers. DO NOT include bath tissue, paper towels, photos, laminated paper, or paper coated with food, wax or foil. |
| PLASTIC | Plastic containers numbered 1-5 and 7. Caps can be left on empty bottles. Labels do not need to be removed. | Containers should be empty and free of excess liquids and food residue. DO NOT include utensils, plates, toys, plant pots, garden hoses or pools. |
| METAL | Includes clean aluminum, tin and steel cans, foil trays and empty aerosol cans. Labels may remain on the containers. Place metal lids inside cans. | Containers should be empty and free of excess liquids and food residue. DO NOT include fire extinguishers, propane and helium gas tanks, utensils, hangers, small appliances, batteries or auto parts. |
| GLASS | Rinse glass bottles and jars to include clear, amber, blue and green glass. Labels do not need to be removed. | DO NOT include light bulbs, mirrors, bakeware, ceramics, drinking glasses, window or auto glass. |

What About Plastic #6? Many recycling programs on a national level no longer include #6 PS plastic, known as polystyrene (check with your local hauler). It comes in expanded (fluffy) and rigid (clear) forms. According to industry experts, #6 PS plastic is not easily recycled because it is mostly air, often coated with food contaminants, and can cost more than other commodities to recycle due to its lightweight nature, lack of competitive markets and high transportation costs. However, *Abt Electronics*, 1200 N Milwaukee Ave., and *Dart Container Corp.*, 315 Evergreen Dr., in Aurora take polystyrene from homeowners. Both companies have drop-off programs for plastic foam packaging and washed out food service items. Visit Abt at abt.com/green/ and Dart Container Corp., Inc. at dartcontainer.com for details.

Plastic bags and wrappers should be stuffed into one bag and tied closed. Recycle them at your nearest participating grocery or retail store.

Items on the NOT ACCEPTABLE list may contaminate an entire load of recyclables and SHOULD NOT be placed in your recycling cart or bin.

| | | | |
|--------------------|-----------------|---------------------|-------------|
| NO auto parts | NO combustibles | NO holiday lights | NO toys |
| NO batteries | NO foam | NO needles/syringes | NO utensils |
| NO clothes hangers | NO food/garbage | NO paint cans | NO wires |

NO Household Chemical Waste. Visit swancc.org for information on proper disposal.

For additional information about properly recycling or disposing of items, contact SWANCC at (847) 724-9205 or visit swancc.org.

RESOURCES FOR HOME LIFE

Our individual and collective health and well-being depend on the health of the natural environment. And the health of the natural environment can be impacted in many ways by the choices we make as consumers.
