MASTER POLE ATTACHMENT AGREEMENT

This Master Pole Attachment Agreement (the “Agreement”) made this ____ day of __________, 2019 between the Village of South Barrington, an Illinois municipal corporation hereinafter designated LICENSOR, and ________________________________, an Illinois ________________________________________, hereinafter designated LICENSEE.

LICENSOR and LICENSEE are at times collectively referred to hereinafter as the "Parties" or individually as the "Party."

WITNESSETH

WHEREAS, LICENSOR is the owner of certain utility poles, wireless support structures, and/or real property, which are located within the geographic area of a license to provide wireless services licensed by the Federal Communications Commission (FCC) to LICENSEE; and

WHEREAS, LICENSEE desires to install, maintain and operate small wireless facilities in and/or upon certain of LICENSOR's utility poles, wireless support structures and/or real property; and

WHEREAS, LICENSOR and LICENSEE acknowledge that any term used in this Agreement that is defined in Section 2 entitled “Definitions” of Chapter 6 entitled “Small Wireless Facility Construction in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code shall have the meaning provided therein; and

WHEREAS, LICENSOR and LICENSEE acknowledge that the terms of this Agreement are nondiscriminatory, competitively neutral and commercially reasonable; and

WHEREAS, LICENSOR and LICENSEE desire to enter into this Agreement to define the general terms and conditions which would govern their relationship with respect to particular sites at which LICENSOR may wish to permit LICENSEE to install, maintain and operate small wireless facilities as hereinafter set forth; and

WHEREAS, the LICENSOR and LICENSEE intend to promote the expansion of communications services in a manner consistent with the Small Wireless Facilities Deployment Act, the Illinois Cable and Video Competition Act, the Illinois Telephone Company Act, the Telecommunications Act of 1996, the Middle Class Tax Relief and Job Creation Act of 2012, the Simplified Municipal Telecommunications Tax Act, 35 ILCS 636/5-1, et. seq. and Federal Communication Commission Regulations; and

WHEREAS, LICENSOR and LICENSEE acknowledge that they will enter into a License Supplement (“Supplement”), a copy of which is attached hereto as Exhibit A, with respect to any particular location or site which the Parties agree to license; and

WHEREAS, the Parties acknowledge that different related entities may operate or conduct the business of LICENSEE in different geographic areas, and as a result, each Supplement may be signed by LICENSEE affiliated entities as further described herein, as appropriate based upon the entity holding the FCC license in the subject geographic location.
NOW THEREFORE, in consideration of the mutual covenants contained herein and intending to be legally bound hereby, the Parties hereto agree as follows:

1) **PREMISES.** Pursuant to all of the terms and conditions of this Agreement and the applicable Supplement, LICENSOR agrees to license to LICENSEE that certain space on or upon LICENSOR’s utility poles, and/or wireless support structures as more fully described in each Supplement to be executed by the Parties hereinafter referred to as the “Premises”, for the installation, operation, maintenance, repair and modification of small wireless facilities; together with the non-exclusive right of ingress and egress from a public right-of-way, seven (7) days a week, twenty-four (24) hours a day, over the Property (as defined below) and to and from the Premises for the purpose of installation, operation, maintenance, repair and modification of LICENSEE’s small wireless facilities. The LICENSOR’s utility poles, wireless support structures and other poles and towers located in the public right-of-way are hereinafter referred to as “poles” and the entirety of the LICENSOR’s property is hereinafter referred to as "Property". In the event there are not sufficient electric and telephone, cable or fiber utility sources located at the Premises or on the Property, LICENSOR agrees to grant LICENSEE the right to install such utilities on, over and/or under the Property and to the Premises as necessary for LICENSEE to operate its communications facility, but only from duly authorized provider of such utilities, provided the location of such utilities shall be designated by LICENSOR. Any installation of such electric, telephone, cable or fiber utility sources shall be subject to the permit requirements of Chapter 5 entitled “Construction of Utility Facilities in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code.

2) **LICENSE APPLICATION.** For each small wireless facility, LICENSEE shall submit an application to LICENSOR for a supplemental license and required permits that includes:

a) Site specific structural integrity and, for a municipal utility pole, make-ready analysis prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989;

b) The location where each proposed small wireless facility or utility pole would be installed, and photographs of the location and its immediate surroundings depicting the utility poles or structures on which each proposed small wireless facility would be mounted or location where utility poles or structures would be installed. This shall include a photo simulated depiction of the completed facility;

c) Specifications and drawings prepared by a structural engineer, as that term is defined in Section 4 of the Structural Engineering Practice Act of 1989, for each proposed small wireless facility covered by the application as it is proposed to be installed, to include dimensional details of small wireless facilities and mounting hardware used to attach equipment to the utility pole or small wireless support structure;

d) The equipment type and model numbers for the antennas and all other wireless equipment associated with the small wireless facility;

e) A proposed schedule for the installation and completion of each small wireless facility covered by the application, if approved;
f) Certification that the collocation complies with the Collocation Requirements and Conditions stated in Section 7-6-4 of the South Barrington Village Code, to the best of the applicant’s knowledge;

g) Specific designation of any proposed small wireless facility as an “eligible facility request,” as that term is defined in the Federal Telecommunications Act, 42 USC §1455;

h) A Concealment Element Plan, if required by Section 7-6-13 of the South Barrington Village Code;

i) All other documentation and materials identified in Section 7-6-4 of the South Barrington Village Code; and

j) The application fee due.

3) REQUIREMENTS.

a) LICENSEE's operation of the small wireless facilities shall not interfere with the frequencies used by a public safety agency for public safety communications. LICENSEE shall install small wireless facilities of the type and frequency that will not cause unacceptable interference with a public safety agency’s communications equipment. Unacceptable interference will be determined by and measured in accordance with industry standards and the FCC’s regulations addressing unacceptable interference to public safety spectrum or any other spectrum licensed by a public safety agency. If a small wireless facility causes such interference, and LICENSEE has been given written notice of the interference by the public safety agency, LICENSEE, at its own expense, shall take all reasonable steps necessary to correct and eliminate the interference, including, but not limited to, powering down the small wireless facility and later powering up the small wireless facility for intermittent testing, if necessary. The LICENSOR may terminate a permit for a small wireless facility based on such interference if LICENSEE is not making a good faith effort to remedy the problem in a manner consistent with the abatement and resolution procedures for interference with public safety spectrum established by the FCC including 47 CFR 22.970 through 47 CFR 22.973 and 47 CFR 90.672 through 47 CFR 90.675.

b) LICENSEE shall not install devices on the existing utility pole or wireless support structure that extend beyond ten (10) feet of the pole’s existing height.

c) LICENSEE shall install pole mounted equipment at a minimum of eight (8) feet from the ground.

d) LICENSEE shall be limited to one (1) cabinet or other ground mounted device for ground mounted installations.

e) LICENSEE shall paint antennas, mounting hardware, and other devices to match or complement the structure upon which they are being mounted and otherwise comply with Section 13 entitled “Stealth, Concealment and Aesthetic Standards” of Chapter 6 entitled “Small Wireless Facility Construction in Rights-of-Way” Title 7 entitled “Public Ways and Property” of the South Barrington Village Code. LICENSEE shall install landscaping at the base of poles with respect to any ground equipment installed by LICENSEE on which
devices are being installed, as required by Section 15 entitled “Location of Facilities” of Chapter 5 entitled “Construction of Utility Facilities in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code.

f) LICENSEE shall comply with all generally applicable terms and conditions of Chapter 5 entitled “Construction of Utility Facilities in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code.

g) LICENSEE shall comply with requirements that are imposed by a contract between the LICENSOR and a private property owner that concern design or construction standards applicable to utility poles and ground-mounted equipment located in the right-of-way.

h) LICENSEE shall comply with applicable spacing requirements in Chapter 5 entitled “Construction of Utility Facilities in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code. LICENSEE shall comply with the South Barrington Village Code, as now or hereafter amended, concerning undergrounding requirements or determinations from the municipal officer or employee in charge of municipal utilities.

i) LICENSEE shall comply with Chapter 5 entitled “Construction of Utility Facilities in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code, as now or hereafter amended, for construction and public safety in the rights-of-way, including, but not limited to, wiring and cabling requirements, grounding requirements, utility pole extension requirements, and signage limitations; and shall comply with reasonable and nondiscriminatory requirements that are consistent with the Small Wireless Facilities Deployment Act, 50 ILCS 835/1 et seq., and adopted by LICENSOR regulating the location, size, surface area and height of small wireless facilities, or the abandonment and removal of small wireless facilities.

j) LICENSEE shall not collocate small wireless facilities within the communication worker safety zone of the pole or the electric supply zone of the pole on LICENSOR utility poles that are part of an electric distribution or transmission system. However, the antenna and support equipment of the small wireless facility may be located in the communications space on the LICENSOR utility pole and on the top of the pole, if not otherwise unavailable, if LICENSEE complies with restrictions identified in the South Barrington Village Code, as now or hereafter amended, for work involving the top of the pole. For purposes of this subparagraph, the terms "communications space", "communication worker safety zone", and "electric supply zone" have the meanings given to those terms in the National Electric Safety Code as published by the Institute of Electrical and Electronics Engineers.

k) LICENSEE shall comply with all generally applicable ordinances, rules, and provisions contained in the South Barrington Village Code.

l) LICENSEE shall install, maintain, repair and modify its small wireless facilities in safe condition and good repair and in compliance with the requirements and conditions of this Agreement. LICENSEE shall ensure that its employees, agents or contractors that perform work in connection with its small wireless facilities are adequately trained and skilled in accordance with all applicable industry and governmental standards and regulations.

m) LICENSOR shall comply with any design or concealment measures in a historic district or historic landmark as may be stated by generally applicable ordinance or in Section 13
Any such design or concealment measures, including restrictions on a specific category of poles, may not have the effect of prohibiting any LICENSEE’s technology. Such design and concealment measures shall not be considered a part of the small wireless facility for purposes of the size restrictions of a small wireless facility. This paragraph may not be construed to limit LICENSOR’s enforcement of historic preservation in conformance with the requirements adopted pursuant to the Illinois State Agency Historic Resources Preservation Act or the National Historic Preservation Act of 1966, 54 U.S.C. Section 300101 et seq. and the regulations adopted to implement those laws.

4) APPLICATION PROCESS. LICENSOR shall process applications as stated in Chapter 6 entitled “Small Wireless Facility Construction in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code, as now or hereafter amended.

5) DURATION OF LICENSE AND SUPPLEMENTS. The term of this Agreement and the initial Supplement shall be for a period of five (5) years, and the Agreement and Supplement shall be renewed for equivalent durations unless LICENSOR makes a finding that the small wireless facilities or the new or modified utility pole do not comply with the provisions and regulations in Chapter 6 entitled “Small Wireless Facility Construction in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code, as now or hereafter amended. Each additional Supplement shall be effective as of the date of execution by both Parties (the "Effective Date"), provided, however, the initial term of each Supplement shall be for five (5) years and shall commence on the first day of the month following the day that LICENSEE commences installation of the equipment on the Premises (the “Commencement Date”). If the Small Wireless Facilities Deployment Act, 50 ILCS 835/1 et seq., is repealed as provided in Section 90 therein, renewals of permits shall be subject to the LICENSOR’s code provisions or regulations in effect at the end of the then current term.

6) EXTENSIONS. Each Supplement may be extended for additional five (5) year terms unless LICENSEE terminates it at the end of the then current term by giving LICENSOR written notice of the intent to terminate at least three (3) months prior to the end of the then current term. The initial term and all extensions under a Supplement shall be collectively referred to herein as the "Term". Notwithstanding anything herein, after the expiration of this Agreement, its terms and conditions shall survive and govern with respect to any remaining Supplements in effect until their expiration or termination.

7) LICENSE FEE. LICENSEE shall pay a License Fee to LICENSOR for each facility installed on LICENSOR’s Premises (the “License Fee”). Payment of the License Fee by the LICENSEE shall commence and be due at a total annual amount as set forth in each Supplement, to be paid in advance annually on the Commencement Date and on each anniversary of it in advance, to the LICENSOR. LICENSOR and LICENSEE acknowledge and agree that the initial License Fee payment for each Supplement shall not actually be sent by LICENSEE until thirty (30) days after the Commencement Date. LICENSOR and LICENSEE agree that they shall acknowledge in writing the Commencement Date of each Supplement. License Fees for the use of any pole pursuant to this Agreement, shall be an annual fee of Two Hundred Dollars ($200.00) per each
wireless facility which LICENSEE attaches to LICENSOR’s Pole. Thereafter, License Fees will be due at each anniversary of the “Commencement Date” of the applicable Supplement. Upon agreement of the Parties, LICENSEE may pay License Fees by electronic funds transfer, and, in such event, LICENSOR agrees to provide to LICENSEE bank routing information for such purpose upon request of LICENSEE.

8) **OBsolescence, Abandonment, and Removal.** Any small wireless facility that is no longer needed or is not operational shall be reported immediately by the LICENSEE to the Village Administrator. Any obsolete or nonoperational small wireless facilities shall be removed within ninety (90) days following notice to the LICENSOR. A small wireless facility that is not operated or removed for a continuous period of twelve (12) months shall be considered abandoned. The LICENSEE shall remove the small wireless facility within ninety (90) days after receipt of written notice from the LICENSOR notifying the LICENSEE of the abandonment. The notice shall be sent by certified or registered mail, return receipt requested, by the LICENSOR to the LICENSEE at the last known address of the LICENSEE. If the small wireless facility is not removed within ninety (90) days of such notice, the LICENSOR may remove or cause the removal of such facility at the sole cost and expense of the LICENSEE.

9) **Condition of Premises.** Where the Premises include one or more poles, LICENSOR covenants that it will keep the poles in good repair as required by all federal, state, county and local laws. If the LICENSOR fails to make such repairs including maintenance within sixty (60) days of any notification to LICENSOR, the LICENSEE shall have the right to cease annual license payments for the effected poles, but only if the poles are no longer capable of being used for the purpose originally contemplated in this Agreement or otherwise do not comply with existing law. If LICENSEE terminates, LICENSEE shall remove its small wireless facility. Termination of this Agreement shall be the LICENSEE’s sole remedy.

10) **Make Ready Terms.** LICENSOR shall not require more make-ready work than required to meet applicable codes or industry standards. Make-ready work may include work needed to accommodate additional public safety communication needs that are identified in a documented and approved plan for the deployment of public safety equipment as specified and included in an existing or preliminary LICENSOR or public service agency plan. Fees for make-ready work, including any LICENSOR utility pole attachment, shall not exceed actual costs or the amount charged to communications service providers for similar work and shall not include any consultants’ fees or expenses for LICENSOR utility poles that do not support aerial facilities used to provide communications services or electric service. Make-ready work, including any pole replacement, shall be completed within sixty (60) days of written acceptance of the good-faith estimate by the LICENSOR at the LICENSEE’s sole cost and expense.

11) **Aerial Facilities.** For LICENSOR utility poles that support aerial facilities used to provide communications services or electric services, LICENSEE shall comply with the process for make-ready work under 47 U.S.C. 224 and its implementing regulations. LICENSOR shall follow a substantially similar process for such make-ready work except to the extent that the timing requirements are otherwise addressed in Chapter 1 entitled “Streets and Sidewalks” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code, as now or hereafter amended. The good-faith estimate of the person owning or controlling LICENSOR’s utility pole for any make-ready work necessary to enable the pole to support the requested
collocation shall include LICENSOR utility pole replacement, if necessary. Make-ready work for utility poles that support aerial facilities used to provide communications services or electric services may include reasonable consultants’ fees and expenses.

12) NO AERIAL FACILITIES. For LICENSOR utility poles that do not support aerial facilities used to provide communications services or electric services, LICENSOR shall provide a good-faith estimate for any make-ready work necessary to enable the LICENSOR utility pole to support the requested collocation, including pole replacement, if necessary, within ninety (90) days after receipt of a complete application. Make-ready work, including any LICENSOR utility pole replacement, shall be completed within sixty (60) days of written acceptance of the good-faith estimate by LICENSEE at LICENSEE’s sole cost and expense. Alternatively, if LICENSOR determines that applicable codes or public safety regulations require the LICENSOR’s utility pole to be replaced to support the requested collocation, LICENSOR may require LICENSEE to replace LICENSOR’s utility pole at LICENSEE’s sole cost and expense.

13) GENERAL RESTRICTIONS. In the event LICENSOR, in its reasonable discretion, deems it necessary to remove, relocate or replace a Pole, LICENSOR shall notify LICENSEE at least one hundred eighty (180) days prior of the need to remove or relocate its small wireless facility. In such event, LICENSOR shall provide options for alternative locations for LICENSEE relocation of equipment which shall be in a mutually agreeable location (“Alternative Premises”). LICENSEE shall be solely responsible for all costs related to the relocation of its small wireless facility to the Alternative Premises. In the event that a suitable Alternative Premises cannot be identified, LICENSEE may terminate the applicable Supplement. In the event of an emergency, which for purposes of this Agreement shall be considered any imminent threat to health, safety and welfare of the public, LICENSOR must provide as much notice as reasonably practical under the circumstances. LICENSEE may terminate this Agreement by giving written notice to the other party specifying the date of termination, such notice to be given not less than one hundred eighty (180) days prior to the date specified therein.

14) ELECTRICAL. LICENSEE shall be permitted to connect its equipment to necessary electrical and telephone service, at LICENSEE’s expense. LICENSEE shall attempt to coordinate with utility companies to provide separate service to LICENSEE’s equipment for LICENSEE use. In the event that LICENSEE can obtain separate electrical service with a separate meter measuring usage, the LICENSEE shall pay the utility directly for its power consumption, if billed directly by the utility. The Parties agree to reflect power usage and measurement issues in each applicable Supplement.

15) TEMPORARY POWER. LICENSEE shall be permitted at any time during the Term of each Supplement, to install, maintain and/or provide access to and use of, as necessary (during any power interruption at the Premises), a temporary power source, and all related equipment and appurtenances within the Premises, or elsewhere on the Property in such locations as reasonably approved by LICENSOR in writing. LICENSEE shall be permitted to connect the temporary power source to its equipment on the Premises in areas and manner approved by LICENSOR.

16) USE; GOVERNMENTAL APPROVALS. LICENSEE shall use the Premises for the purpose of constructing, maintaining, repairing and operating small wireless facilities and uses incidental thereto. LICENSEE shall have the right to replace, repair and modify equipment, antennas and/or conduits or any portion thereof and the frequencies over which the equipment
operates, in conformance with each Supplement hereto. It is understood and agreed that LICENSEE's ability to use the Premises is contingent upon its obtaining, after the execution date of each Supplement all of the certificates, permits and other approvals (collectively the "Governmental Approvals") that may be required by any Federal, State or County authority, or the LICENSOR, as well as a satisfactory building structural analysis which will permit LICENSEE use of the Premises as set forth above. In the event that (i) any of such applications for such Governmental Approvals should be finally rejected; (ii) any Governmental Approval issued to LICENSEE is canceled, expires, lapses, or is otherwise withdrawn or terminated by governmental authority; and (iii) LICENSEE determines that such Governmental Approvals may not be obtained in a timely manner, LICENSEE shall have the right to terminate the applicable Supplement. Notice of LICENSEE's exercise of its right to terminate shall be given to LICENSOR in accordance with the notice provisions set forth in Paragraph 20 and shall be effective upon the mailing of such notice by LICENSEE, or upon such later date as designated by LICENSEE. All License Fees paid to said termination date shall be retained by LICENSOR. Upon such termination, the applicable Supplement shall be of no further force or effect except to the extent of the representations, warranties and indemnities made by each Party to the other thereunder. Otherwise, the LICENSEE shall have no further obligations for the payment of License Fees to LICENSOR for the terminated Supplement. Notwithstanding anything to the contrary in this paragraph, LICENSEE shall continue to be liable for all License Fee payments to the LICENSOR until all equipment is removed from the Property.

17) INSURANCE. LICENSEE shall carry, at LICENSEE's own cost and expense, the following insurance: (i) property insurance for its property's replacement cost against all risks; (ii) workers' compensation insurance, as required by law; or (iii) commercial general liability insurance with respect to its activities on LICENSOR improvements or rights-of-way as stated and required in Chapter 5 entitled “Construction of Utility Facilities in Rights-of-Way” of Title 7 entitled “Public Ways and Property” of the South Barrington Village Code.

LICENSEE may self-insure all or a portion of the insurance coverage and limit requirements required by LICENSOR. If LICENSEE self-insures it is not required, to the extent of the self-insurance, to comply with the requirement for the naming of additional insureds under this Section. If LICENSEE elects to self-insure it shall provide to LICENSOR evidence sufficient to demonstrate LICENSEE’S financial ability to self-insure the insurance coverage and limits required by LICENSOR.

18) INDEMNIFICATION. LICENSEE shall indemnify and hold LICENSOR harmless against any and all liability or loss from personal injury or property damage resulting from or arising out of, in whole or in part, the use or occupancy of LICENSOR’s improvements or right-of-way associated with such improvements by LICENSEE or its employees, agents, or contractors arising out of the rights and privileges granted under this Agreement or the Small Wireless Facilities Deployment Act, 50 ILCS 835/1 et seq. LICENSEE has no obligation to indemnify or hold harmless against any liabilities and losses as may be due to or caused by the sole negligence of LICENSOR or its employees or agents. LICENSEE hereby further waives any claims that LICENSEE may have against the LICENSOR with respect to consequential, incidental, or special damages, however caused, based on any theory of liability.
19) REMOVAL AT END OF TERM. LICENSEE shall, upon expiration of the Term, or after any earlier termination of a Supplement, remove its equipment, conduits, fixtures and all personal property and restore the Premises to its original condition, reasonable wear and tear and casualty damage not caused by LICENSEE excepted. LICENSOR agrees and acknowledges that all of the equipment, conduits, fixtures and personal property of LICENSEE shall remain the personal property of LICENSEE and LICENSEE shall have the right to remove the same at any time during the Term, whether or not said items are considered fixtures and attachments to real property under applicable laws. If such time for removal causes LICENSEE to remain on the Premises after termination of the Supplement, LICENSEE shall pay License Fees at the then existing monthly rate or on the existing monthly pro-rata basis if based upon a longer payment term, until such time as the removal of the antenna structure, fixtures and all personal property are completed. In no event shall LICENSEE’s equipment be permitted to remain on a Pole for more than ninety (90) days after the expiration of the relevant supplement.

20) NOTICES. All notices hereunder must be in writing and shall be deemed validly given if sent by certified mail, return receipt requested or by commercial courier, provided the courier's regular business is delivery service and provided further that it guarantees delivery to the addressee by the end of the next business day following the courier's receipt from the sender, addressed as follows (or any other address that the Party to be notified may have designated to the sender by like notice):

21) CASUALTY. In the event of damage by fire or other casualty to the Pole or Premises that cannot reasonably be expected to be repaired within forty-five (45) days following same or, if the Pole or Property is damaged by fire or other casualty so that such damage may reasonably be expected to disrupt LICENSEE’s operations at the Premises for more than forty-five (45) days, then LICENSEE may, at any time following such fire or other casualty, provided LICENSOR has not completed the restoration required to permit LICENSEE to resume its operation at the Premises, terminate the Supplement upon fifteen (15) days prior written notice to LICENSOR. Any such notice of termination shall cause the Supplement to expire with the same force and effect as though the date set forth in such notice were the date originally set as the expiration date of the Supplement and the Parties shall make an appropriate adjustment, as of such termination date, with respect to payments due to the other under the Supplement. Notwithstanding the foregoing, the License Fees shall abate during the period of repair following such fire or other casualty in proportion to the degree to which LICENSEE’s use of the Premises is impaired.

22) DEFAULT. In the event there is a breach by a Party with respect to any of the provisions of this Agreement or its obligations under it, the non-breaching Party shall give the breaching Party written notice of such breach. After receipt of such written notice, the breaching Party shall have thirty (30) days in which to cure any breach, provided the breaching Party shall have such extended period, not to exceed ninety (90) days, as may be required beyond the thirty (30) days if the breaching Party commences the cure within the 30-day period and thereafter continuously and diligently pursues to cure to completion. The non-breaching Party may maintain any action or affect any remedies for default against the breaching Party subsequent to the 30-day cure period, as potentially extended to ninety (90) days based on circumstances.

23) REMEDIES. In the event of a default by either Party with respect to a material provision of this Agreement, without limiting, other than by the specific terms of this Agreement, the non-defaulting Party in the exercise of any right or remedy which the non-defaulting Party may have by reason of such default, the non-defaulting Party may terminate the applicable Supplement and/or pursue any remedy now or hereafter available to the non-defaulting Party under the Laws or judicial decisions of the state of Illinois. Further, upon a default, the non-defaulting Party may at its option (but without obligation to do so), perform the defaulting Party’s duty or obligation on the defaulting Party’s behalf, including but not limited to the obtaining of reasonably required insurance policies. The costs and expenses of such performance by the non-defaulting Party shall be due and payable by the defaulting Party upon invoice therefor.

24) APPLICABLE LAWS. During the Term, LICENSOR shall maintain the Property and the Pole in compliance with all applicable laws, rules, regulations, ordinances, directives, covenants, easements, zoning and land use regulations, and restrictions of record, permits, building codes, (collectively “Laws”). LICENSEE shall, in respect to the condition of the Premises and at
LICENSEE’s sole cost and expense, comply with (a) all Laws relating solely to LICENSEE’s specific and unique nature of use of the Premises; and (b) all building codes requiring modifications to the Premises due to the improvements being made by LICENSEE in the Premises. It shall be LICENSOR’s obligation to comply with all Laws relating to the Pole in general, without regard to specific use (including, without limitation, modifications required to enable LICENSEE to obtain all necessary building permits).

25) **BOND.** LICENSEE shall deposit with LICENSOR prior to the commencement of each Supplement a bond in a form reasonably acceptable to LICENSOR in the amount of Ten Thousand Dollars ($10,000.00) per small wireless facility to guarantee the safe and efficient removal of any equipment from any Premises subject to this Agreement, which equipment remains more than thirty (30) days after License Fee payment has ceased and Licensee has failed to remove the equipment. Such funds may also be used to restore the premises to original condition, if LICENSEE fails to do so.

26) **MISCELLANEOUS.** This Agreement and the Supplements that may be executed from time to time hereunder contain all agreements, promises and understandings between the LICENSOR and the LICENSEE regarding this transaction, and no oral agreement, promises or understandings shall be binding upon either the LICENSOR or the LICENSEE in any dispute, controversy or proceeding. This Agreement may not be amended or varied except in a writing signed by all Parties. This Agreement shall extend to and bind the heirs, personal representatives, successors and assigns hereto. The failure of either party to insist upon strict performance of any of the terms or conditions of this Agreement or to exercise any of its rights hereunder shall not waive such rights and such party shall have the right to enforce such rights at any time. The performance of this Agreement via each Supplement shall be governed, interpreted, construed and regulated by the laws of the state of Illinois.

27) **EXECUTION IN COUNTERPARTS.** This Agreement and any Supplements may be executed in multiple counterparts, including by counterpart facsimiles or scanned email counterpart signature, each of which shall be deemed an original, and all such counterparts once assembled together shall constitute one integrated instrument.

28) **AUTHORIZATION.** LICENSEE certifies and warrants that it has the authority to enter into this Agreement.
