CITIZEN COMMENTS/PRESENTATIONS
President McCombie noted that the next agenda item, a presentation by Wheat & Barley for The Arboretum, was again cancelled by Wheat & Barley.

President McCombie asked the audience if there were any questions or comments for the Board. The President of the Willow Bay Homeowners Association expressed a very strong concern that their HOA is not supported by the Village. He stated that a house under construction has not stuck to the approved blueprint and that the Village says the owner can change his mind. The owner has returned to his original design for the house, which puts six bays of garage doors facing a neighbor’s living room. The original design was in dispute, and all parties then signed off on changed blueprints. He asked for stronger support from the Village, saying that while he knows the Village does not enforce HOA rules, it should enforce the agreement of all signing off on blueprints, not solely meeting code. He appreciated the Board’s time and thanked them for listening. Building Officer Moreland stated that the Village is still holding $5000, and that the only matter remaining on the list for this builder is to resolve this disagreement with the HOA. Trustee Abbate asked Building Officer Moreland to meet with him soon so he could learn more background on the issue.

President McCombie asked the audience if there were any other questions or comments for the Board; there were none.

BACOG
President McCombie referred to the submitted report; there were no questions or comments.

SWANCC
Representative Abbate reported that BACOG is investigating a textile recycling program; he will bring more information on it as it becomes available.
President McCombie asked about a pharmaceutical disposal program. Representative Abbate noted that both the Town of Barrington and Walgreens will accept old prescription medicine, and noted that it is a complex program which can cause some problems for smaller departments.

COMMITTEE REPORTS - BUILDING & ZONING
Building Officer Morland said that the last few meetings have been spent on changes to the Building Code, and that the Committee should be done with the revisions soon.

COMMITTEE REPORTS – CONSERVANCY COMMISSION
Chairwoman Diane Bodkin distributed very nice ‘Tree Walk’ brochures produced by the Commission. She highlighted the recent Arbor Day celebration, and President McCombie noted that the Johnny Appleseed character did a fantastic job. Chairwoman Bodkin said that the Commission would like to host a program again next Arbor Day, and that they plan to do much more advertising next year, including at all the elementary schools.
Chairwoman Bodkin highlighted the Showcase Garden at The Conservancy, and said that they would like to have the services of a professional landscaping service. She asked the Board for any recommendations of garden landcapers.
The Conservancy is now concentrating on an education phase. It has been difficult to coordinate with the school system, but yesterday the Commissioners talked with the Curriculum Director, and Rose School students will now be able to attend a summer science class including a soil and water course by the Conservancy. The Commissioners also want to work with middle and high school curriculum. The Conservancy Commission has also recently talked with a representative from The Regency about having activity and/or education classes for Regency residents.
Chairwoman Bodkin reminded everyone that this year’s theme for the Scarecrow Walk will be “children’s books”. She also stated that The Conservancy needs help with regular maintenance; she suggested grandparents might want to bring their grandchildren and share that activity.
Trustee Kerman said that the Arbor Day program was indeed fantastic, enjoyable and educational. Trustee Stagno added that The Conservancy may want to submit some of its photography to be posted on the Village website. Trustee Patel asked about arranging field trips from Rose School to The Conservancy; Chairwoman Bodkin explained some of the difficulties of arranging field trips, like the need to be a queue for two years.

The Chief replied that the County does not have a lot of regulations on coyotes and that Animal Control only becomes involved when there is a question of safety.
